## Road Commission for Oakland County Retirement System

### SUMMARY ANNUAL REPORT TO MEMBERS DECEMBER 31, 2009

Dear Retirement System Member:

The Retirement System, which is managed by the Retirement Board, is designed to help you meet your financial needs should you become disabled, retire or die. The Road Commission also supports a Retiree Health Insurance Program, which is separate from the Retirement System.

The Retirement Board's fiduciary responsibility to you is to supervise the general administration of the System and invest its assets. Our Board retains professional advisors to assist us in fulfilling these duties.

We have prepared this summary report to give you a brief overview of the Retirement System and how it operates. We hope you will find it useful and informative. However, a summary cannot cover all the details of the System, which is governed by the provisions of the Road Commission's retirement resolution and the Retirement Board's procedures. Additional information about the System and its financial operation is available in the Finance Director's office.

Respectfully submitted,

*Road Commission for Oakland County Retirement System

## SUMMARY RESULTS OF ACTUARIAL VALUATION

Your Retirement System's financial objective is to accumulate the assets necessary to pay the promised benefits in an orderly manner. To accomplish this, contribution rates are established in a manner that is designed to keep the rates approximately level as a percentage of payroll from year to year. The Board of Trustees of the Retirement System provides for payment of the required employer contribution as described in Section 20m of Michigan Public Act No. 728 of 2002.

To determine an appropriate employer contribution level for the ensuing year and to gauge how the System's funding is meeting this fundamental objective, an independent firm of actuaries and employee benefit consultants, Gabriel, Roeder, Smith & Company, conducts annual actuarial valuations.

These valuations are based on your System's past experience, information about current participation, financial markets, and assumptions concerning the System's future demographic and economic activity. The results of the December 31, 2009 valuation, based on the established funding objective, are summarized below:

### Fiscal Year Beginning October 1, 2010 Employer Contribution Rates Expressed as a % of Active Member Payroll

Contributions for	All Members
Normal Cost of Benefits	
Total	13.08%
Member portion	<u>0.00</u>
Employer portion	13.08
Amortization of unfunded liability	2.52
<b>Computed Employer Rate</b>	<b>15.60%</b>
Funded Status	<u>\$ Millions</u>
• Actuarial accrued liabilities	\$181.2
• Applied assets (smoothed market value)	166.4
• % funded	91.8 %

#### Actuary's Opinion

It is the actuary's opinion that the contribution rates recommended in the most recent actuarial report are sufficient to meet the System's financial objective.
