CONCRETE SLAB REPLACEMENT ON ORCHARD LAKE RD FROM JUST SOUTH OF 11 MILE RD TO I-696 IN FARMINGTON HILLS TO START JUNE 10

Beverly Hills, MI – The Road Commission for Oakland County (RCOC) will begin replacing concrete slabs on Orchard Lake Road from just south of 11 Mile Road to I-696 in Farmington Hills starting Thursday, June 10.

The work will require lane closures on Orchard Lake Road. At least one lane in each direction will remain open to traffic during the work that is expected to be completed by August. Access to businesses and side streets will be maintained during the work.

For more information on the 2021 concrete replacement projects, visit: <http://rcocweb.org/419/Concrete-Slab-Replacement>.

Cipparrone Contracting, of Southfield, is the contractor for the work. This section of Orchard Lake Road carries approximately 24,000 vehicles daily.

Motorists should also be aware that if they see little activity within the construction area, it is due to the fact that the concrete must cure before it can be driven on, which can take a week or more.
