MAPLE ROAD RESURFACING PROJECT LIMITS EXPANDED FROM COOLIDGE HWY TO DEQUINDRE RD IN CLAWSON AND TROY; NEW START DATE OF JUNE 20

Beverly Hills, MI — In partnership with the cities of Clawson and Troy, the Road Commission for Oakland County will resurface Maple Road between Coolidge Highway and Dequindre Road starting Monday, June 20.

The original start date of June 1 has been delayed due to extending the eastern project end from Rochester Road to Dequindre Road at the Macomb County border (adding just over two additional miles of Maple Road to the project).

During construction, one lane of traffic in each direction will remain open on Maple Road at all times. The project is expected to be completed in late summer.

This project includes:

- Milling (grinding off) the existing road surface
- Repaving with asphalt
- Repairing curbs and gutters
- Upgrading pedestrian crosswalks to comply with the Americans with Disabilities Act (ADA)
- New pavement markings

The contractor for this project is Cadillac Asphalt of Farmington Hills.
