

## BEAR CREEK CT. CULVERT REPLACEMENT TO START JULY 25; ROAD WILL REMAIN OPEN DURING WORK

The Road Commission for Oakland County (RCOC), in partnership with Oakland Township, will replace three culverts under Bear Creek Court with a concrete box culvert.

### **PROJECT DETAILS**

The project will include:

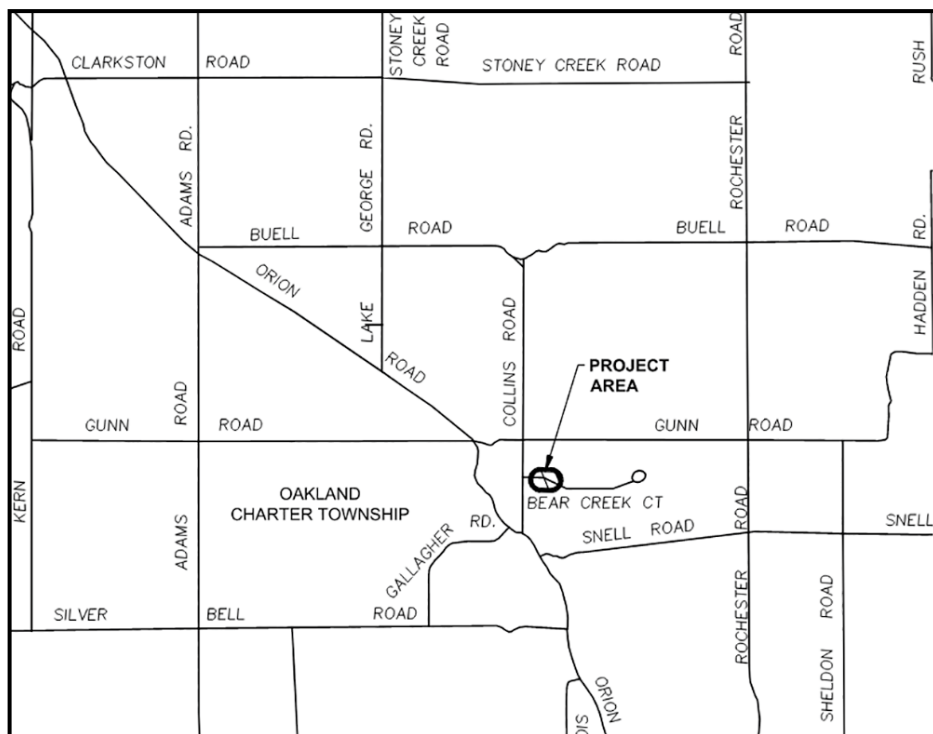

- Removal of the three existing corrugated metal culverts.
- Installation of the concrete box culvert.
- Minor storm sewer improvements.
- Curb and gutter replacement in the vicinity of the culverts.
- Repaving over the new box culvert with asphalt.

### **SCHEDULE**

The contractor is expected to begin bringing equipment and materials to the site on July 20 and begin to work on the project on July 25. The work is expected to be completed by Sept. 30.

### **IMPACT ON TRAFFIC**

Bear Creek Court will remain open to two-way traffic throughout the project. However, the road will be reduced to one lane of traffic at the culverts, and motorists will have to yield to oncoming traffic.

Access to all homes on Bear Creek Ct. will be maintained at all times.

### **PROJECT COST AND FUNDING**

The project is expected to cost approximately \$837,000. It is being paid for by RCOC.

### **ADDITIONAL INFO**

Additional information is available on the project page of the RCOC website ([rcocweb.org](http://rcocweb.org)). Click on the "Road Projects" button on the site home page and select "Bear Creek culvert" from the list of projects.
